***“The Analytical Sciences Talent Program strengthens the interaction between education and industry.”***

*Prof. Dr. Ir. P.J. Schoenmakers,  
Universiteit van Amsterdam &  
TI-COAST*

***“ASTP has increased my knowledge and has broadened my view on the possibilities of analytical sciences.”***

*Bram van de Kooi,  
ASTP cohort 4*

***“I was able to expand my network as I have met a lot of professionals.”***

*Koen van den Helder,  
ASTP cohort 4*

## **Application procedure**

Each year a maximum of 30 students will be admitted to the program.

Application is possible from March 1st until the end of April. Representatives of HAN, COAST and participating companies will select applicants. This will involve one or more interviews, which will be conducted in English. The interviews will take place in May.

## **Applying**

Upon application the following documents need to be submitted as PDF files to [astp@han.nl](mailto:astp@han.nl):

- Letter of motivation
- Curriculum Vitae
- Current overview of grades
- Recommendation from your current educational institute

## **The program**

You will follow this three-year program next to your hlo studies. During each of the three years you will:

- complete your internships at a leading COAST companies
- attend about 8 Saturday Courses and 1 week Summer Course per year, taught by leading experts from academia and industry
- complete three challenges upon a variety of topics to train your (soft) skills
- attend several network events

**Participation in ASTP provides you with outstanding career prospects!**
